Communities Organize To Fight Human Trafficking

In May, the Governor's Office of Crime Control & Prevention (GOCCP) hosted the second annual Conference on Human Trafficking geared towards professionals who work in agencies that interact with trafficking victims. Many citizens came forward asking the question:

If we are not professionals who work in these agencies, how can we get involved?

Araminta Freedom Initiative is designed to answer that question. Araminta is partnering with GOCCP to put on a conference for the general public. Please join us for:

UNCHAINED Conference: Empowering Our Community to Abolish Modern Day Slavery

**Saturday, September 14th
9:30am – 1:00pm
Grace Fellowship Church
9505 Deereco Road
Timonium, MD**

The conference will address how members of the community can actively engage in the mission to end child sex trafficking in our region. It will also highlight the various organizations that partner together on the Victim Services Committee of the Maryland Human Trafficking Task Force.
